

# Moiz Ahmad

QUALITY ASSURANCE ENGINEER

03200988004 | moizahmad248@gmail.com | Portfolio | Islamabad / Lahore

## PROFILE SUMMARY

Result-oriented QA Engineer with hands-on experience in manual and automated testing, ensuring software quality across web and mobile applications. Skilled in test planning, defect tracking, regression testing, and responsiveness validation on multiple devices. Delivered multiple successful product releases by ensuring its software quality. Have hands on experience on testing techniques in fast paced Agile Model. Good communication and interpersonal skills with a proven ability to work independently and as part of a team.

## SKILLS

|                              |                                      |                             |
|------------------------------|--------------------------------------|-----------------------------|
| Functional Testing           | Test Automation - Cypress            | API Testing - Postman       |
| Requirement Analysis         | Performance Testing - JMeter (Basic) | Cross Browser Testing       |
| Defect Tracking & Reporting  | Android/ IOS Testing                 | UI & Responsiveness Testing |
| Test Case Design & Execution | Regression Testing                   | Jira & Microsoft Planner    |

## WORK EXPERIENCE

### Associate QA Engineer

May, 2025 - Present

#### Fidsor . Onsite

- Analyzing product requirements and mapping them into actionable test scenario
- Designing and managing detailed test cases
- Conducting thorough testing of new features, improvements, and bug fixes on a daily basis
- Performing local testing to ensure code changes are stable before wider distribution
- Performing end-to-end testing of critical flows
- Built automated test cases for core application flows using Cypress.
- Reporting, tracking, and re-testing bugs while working closely with developers to resolve issues.
- Collaborating with cross-functional teams to ensure issues are properly tracked and resolved
- Testing web and mobile applications to ensure smooth functionality, design accuracy, and responsiveness.
- Performing API testing by validating request/response payloads, status codes, headers, and error handling.
- Logged and maintained defects in shared documents and project management tools for traceability

### SQA Intern

Jun - Aug, 2024

#### Octaloop Technologies . Onsite

- Assisted in manual testing of web and mobile applications to identify functional and usability issues.
- Participated in sprint refinement meetings, clarifying requirements for enhanced test coverage
- Designed and executed basic test cases under senior QA guidance.
- Performed regression testing on newly delivered builds.
- Learned fundamentals of SDLC, STLC, and Agile methodologies.
- Contributed to maintaining project documentation and test reports.

## EDUCATION

**Bachelors of Computer Science**  
Arid University , UIIT Campus Rawalpindi

2021 - 2025

**Intermediate**  
Govt. Post Graduate College Layyah

2019 - 2021

---

## CERTIFICATIONS & COURSES

- Full Stack Development - UET Lahore, September 2023
  - Javascript & Algorithms - Freecodecamp, August 2023
  - API testing using Postman - 10PearlsUniversity, August 2025
  - Introduction to JIRA - Simplilearn, July 2025
  - Cypress : Web Automation Testing - Udemy
- 

## HONORS

- Awarded with PEEF and HIJRI Scholorships
- District InterAcademies Quiz Competition Winner
- Best Employee of the Month , Aug-2025
